

TENDER AWARD SUMMARY

(Public Procurement Result Notice)

Tender Reference No.:	PWD/ZN4/RC/2026/0305
Issuing Department:	PWD Zone 4
Region:	Zone D
Category of Work/Supply:	Road Construction
Estimated Tender Value (INR):	9,800,000.00
Final Award Value (INR):	9,450,000.00
Date of Publication:	12-03-2026
Date of Award:	02-04-2026

Eligibility Criteria

Contractor must hold a valid Class-A road construction license issued by the state public works department, and must have completed at least 5 kilometers of rural or semi-urban road construction work within the last 5 years, with completion certificates issued by the respective executing department. The bidder must additionally demonstrate financial capacity through audited financial statements for the preceding 3 financial years, showing an average annual turnover of not less than the estimated tender value. The bidder must not have been blacklisted or debarred by any state or central government department at the time of bid submission, and must submit a self-declaration to this effect along with the technical bid. All equipment proposed for use on this project, including but not limited to road rollers, asphalt pavers, and bitumen sprayers, must be owned or held under a valid lease agreement for the full contract duration, with supporting documentation to be submitted at the time of technical evaluation. The bidder must also employ a minimum of one full-time site engineer holding a recognized civil engineering qualification for the duration of the contract, along with adequate safety personnel as per applicable labor safety regulations. Failure to meet any of the above criteria at the time of technical evaluation shall render the bid non-responsive and liable for rejection without further consideration, regardless of the quoted price. In addition to the foregoing, the bidder shall furnish an irrevocable bank guarantee equivalent to five percent of the estimated tender value, valid for the full contract period plus a defect liability period of twelve months thereafter, issued by a scheduled commercial bank. The bidder shall also maintain a fully equipped site office with weighbridge facilities, quality-testing laboratory access, and daily progress reporting mechanisms acceptable to the engineer-in-charge. Sub-contracting of any portion of the work exceeding twenty percent of the contract value is strictly prohibited without prior written approval of the competent authority, and any violation discovered during execution shall be grounds for immediate contract termination and forfeiture of the performance security. The bidder is further required to comply with all applicable environmental clearances, labor welfare cess payments, and safety audit requirements as prescribed under the relevant central and state legislation currently in force, and must indemnify the department against any claims arising from non-compliance with the same throughout the contract period and any extension thereof.
